

## Logo Redesign

### Automated Energy Services (AES)

#### Belfast, ME

Lumpfish Solutions was approached by Automated Energy Services (AES) to take their logo and develop a vector-based version which would be used for their corporate uniforms and other marketing materials.

AES had this to say about this project:

*"I contacted Torrey to create a logo for my business. I presented him with a near impossible deadline. His turnaround exceeded my expectations. The quality of his design coupled with his knowledge in Graphic Design make him an obvious choice for my next project."*

**Original Logo**

**Enhanced Logo**
